

Spektrum (perforated) Panel's

eKōR Spektrum panels take a standard plain panel and add decorative perforations in a wide array of patterns. Spektrum also make great open office screens. Numerous designs are available to enhance any work space adding depth and definition to your design. From simple to elaborate patterns the possibilities are endless.

Standard Panel Size: 1200m by 2400mm Thickness: 9mm, 12mm and 24mm Other thickness available upon request

Composition: 100% Polyester (min 60% (+/-) recycled PET fiber).
Weight: 9mm=1.9kg/m² - 12mm=2.3kg/m² **Acoustic**

Performance: 9mm (3/8") ASTM C423/D: NRC = 0.75 ASTM C423/A: NRC = 0.35 12mm (1/2") ASTM C423/D: NRC = 0.85 ASTM C423/A: NRC = 0.45

eKōR... everyday solutions

eKōR Spektrum Design Tip:

Combine a second contrasting colored panel behind to enhance both the acoustic value and make your pattern stand out. Custom designs, patterns, shapes, and sizes available upon request.
