

WALLWORKS

eKÖR

PET Recycled Panel 

sustainable and creative products for a healthier world

eKÖR - Old Norse plural of eKa meaning "Echo"

This is the mark you leave on this earth, make it a good one.
When you leave, only the echo remains.

eKÖR Basics

These "basic" panels can be used freestanding, fastened to a wall, applied over glass or hung on track. Simple, fast, colorful and effective.

eKÖR
Molded Tiles

Build out areas as required... Add color to create pattern or motif

PET-的-003P 300*300*25mm

eKÖR
Clouds

Ceiling and cloud details improve acoustic performance while adding architectural elements of dimension, color, texture and form.

- *CAN/ULC S102 fire rating*
- *IAQ certified*
- *High % recycled consumer waste content*
- *Contributes Well and LEED Credits*

Look up for inspiration...

eKÖR MÖRe...

3mm over 9mm Carved Panels

...Curtain walls used as partitions and acoustic buffers

Perfect where the requirements for partitioning are constantly changing

eKÖR for Healthy Learning Spaces

The long and short term impact of healthy acoustic design on learning and performance is becoming more and more evident and increasingly is a required element for consideration.

Acoustic solutions no longer need to be boring, hidden behind walls or cost prohibitive.

eKÖR Privacy Screens

A sense of privacy can be created by integrating eKÖR partition screens and panels... customized to your specification, color and design... redefine your space .

eKÖR for Public Spaces

eKÖR ~ color and design flexibility and acoustic performance to fit any application.

eKÖR Color Stacking

...sound solutions that are simple, adaptable and effective

Presentation areas are a natural place to focus on the integration of acoustic products. Conventional materials no longer meet the creative needs of architects and designers... consider color stacking and the use of repeating or non repeating wave patterns for visual interest... and irregular or repeating pattern.

A simple, effective way create sound, stylish spaces

eKÖR geometric and articulated tiles create texture, and noteworthy acoustic improvement. These can be simple fast installations that effectively transform the acoustic experience in reception or waiting rooms, at home offices or shared work areas

eKÖR

Community, Health
and Learning
Environments

Design Criteria for child friendly spaces:

1. Create an age appropriate and stimulating backdrop for spirited play
2. Use materials that are safe and environmentally concious
3. Choose rich, bold, fanciful colors
4. Invite imagination

eKÖR Creative Spaces

Printed panels let you think outside of the box...

Using advanced print technology it is possible to replicate any picture selected for themed wall surfacing... Below it has also been used to create a dream or to feature an office icon.

eKÖR Roller Wave Panels

Style, simplicity, and sound results ... it doesn't have to be complicated to be effective. Catch the wave!

eKÖR Home Theater

Drawing on the experience of commercial theatres and by using an acoustic cavity design we can offer customized sound absorbing walls series for the panoramic surround sound in home or office theatres.
